

FritsJurgens® HEXAGON GUIDE

FritsJurgens offers the Hexagon Guide to ease the installation of the top pivot in case the pivot point is more than 280mm from the side of the door.

The Hexagon Guide contains pre-set holes, through which gaps around the door can be easily adjusted using the Hexagon key. The Hexagon Guide will offer you easy access and stability of the top pivot.

The Hexagon Guide is made out of Durodeen. This is a light material with a very uniform and homogeneous structure. Durodeen is very easy to adapt. It is for example easy to plan and sand and
