Margin Lighting Series

John Astbury

The Margin lighting family is designer John Astbury's modern interpretation of a classic luminaire. Exploring a tiered typology for lighting, Margin's intersecting shades gently diffuse the light and instantly set the tone with warmth and tactility. The softness of the fabric is tempered by a clean and graphic silhouette that lends a certain presence and volume to a space. It is the sense of proportions, along with details such as the linear element through the lamp, which sharpen the aesthetics and allow Margin's special character to unfold.

Materials

Powder coated steel with textile shade.

About the Designer

John Astbury's studio was founded in 2014 and is based in Stockholm, Sweden. After previously studying anthropology in England, John Astbury completed studies in design at Konstfack, college of Arts, and Crafts in 2011. Building from archetypes, his work reduces the object to its fundamentals, exposing material, structure and form. A language of absolute simplicity while making visible the dialogues and symbols that surround the object.

About New Works

New Works presents a collection at the intersection between old and new. Light and dark. Design and art. Our work pays homage to the strong Scandinavian history of craftsmanship and materiality, whilst challenging the contemporary forms of today. We collaborate with an international group of renowned designers and artisans, who display a matching fascination with sculptural forms and honest materials. These collaborative pursuits convey our love of the sensual, and of the bold.
