System 900

PRODUCT CHARACTERISTICS

- System 900 has been designed for applications in the professional care sector
- Puristic design in conjunction with a high degree of functionality
- Unique product range depth
- Material variety enables design freedom
- Hygienic surface finish
- Long-lasting quality

RECOMMENDED APPLICATION AREAS

Professional Care, Hotel, Public

System 900

DESIGN

NOA Produktdesign, Aachen

MATERIAL AND SURFACES

Stainless steel satin finished or high-quality chrome-plated with inserts made of satin-finish crystal glass or polyamide in colors 98 (signal white) and 92 (anthracite gray). Stainless steel powder-coated in 3 colors with inserts made of satin-finish crystal glass or matt polyamide in the colors signal white matt or jet black matt.

System 900

Accessories

DESIGN

- Puristic
- Classic language of form
- Developed together with the design agency NOA, Aachen

RELIABLE QUALITY

- Durable
- Tested for use in highly frequented sanitary rooms
- Only high-quality materials
- Precise workmanship

MATERIAL OPTIONS

- Optional available in satin finished stainless steel, high-quality chrome-plated or powder-coated
- Can be combined with elements made of polyamide or satin finished crystal glass

· **VERSATILE IN USE**

- Unique assortment depth
- Compatible, uncompromising accessible design

· **CONSISTENT DESIGN**

- Can be combined with HEWI hardware system 162
- ENTRO handrails of range circum supplement the system 900

· **CLEANING-FRIENDLY | HYGIENE**

- Smooth surfaces facilitate cleaning
- Resistance to cleaning products
- minimum joints

HEWI Shower basket

- made of high-quality stainless steel, for wall mounting
- insert made of high-quality synthetic material in HEWI colors 98 (signal white), 92 (anthracite gray) and 90 (jet black)
- 8 11/16" (220 mm) wide, 2 5/8" (67 mm) high, 4 1/2" (115 mm) deep
- including non-corrosive HEWI fixing material
- satin finished
- chrome-plated
- powder-coated in HEWI colors AS (matt white) with insert made of high-quality synthetic material in HEWI color 98 (signal white) or powder-coated in HEWI colors CV (matt black) and ER (matt dark gray pearl mica) with insert made of high-quality synthetic material in HEWI color 90 (jet black)

Please advise color of insert resp. color combination when ordering.

System 900

Support

MOBILE SOLUTION

- Mobile swing-up grab bar is clicked into position in a permanently mounted assembly plate as required
- Assembly and dismantling does not require any tools

HYGIENIC DESIGN

- Minimum number of components, few joints
- Precise transitions thanks to laser technology
- Easy-care, cleaning agent-resistant materials
- Pore-free surfaces
- Concealed fixing

CONFIGURED

- Configured depending on requirements
- Assortment comprises minimalist swing-up grab bar Mono through to swing-up grab bar Duo with an integrated radio flushing solution and toilet roll holder

INTEGRATED FUNCTIONS

- Flushing solution, freely assignable function button and toilet roll holder are integrated into the swing-up grab bar as an option
- Easy cleaning
- No retrofitting necessary

SECURE GRIP

- Additional strengthening ensures extreme stability and reliable hold
- The cross-section is perfectly shaped for the human hand
- Round tube design offers a pleasant and secure hold

WELL THOUGHT-THROUGH TECHNOLOGY

- Maintenance-free brake softens the lowering of the swing-up grab bar and minimises the risk of injury
- The swing-up grab bar only lowers automatically at a setting of 45°
- Defined pre-set stopper supports the wall
- Maintenance-free, permanently smooth-running joint (pre-set ex works)

DESIGN VARIANTS

- 2 design variants

EASY INSTALLATION

- Proven fixing technology
- Safe and reliable
- Borehole tolerance allows compensation

SEALING ELEMENT

- Wall plate can be supplemented with a sealing tape (included in the delivery scope)
- Seals the fixing element reliably toward the wall
- Compensates joints or unevenness on walls

WALL PLATES

Design A

- ideal implementation of the language of form of the system 900
- available as a mono and duo variant
- metallic stopper element ensures maximum product rigidity and offers the user a secure handling feeling
- maintenance-free, permanently smooth-running joint, pre-set ex works
- at a setting of 45°, the swing-up grab bar lowers automatically
- in the upper position (tilt < 45°) a defined friction force of the hinged support rail prevents unintentional lowering/triggering
- a defined stopper prevents the swing-up grab bar banging against the wall
- available as a tool-free mobile variant

Design B

- streamlined design alternatives
- available as a mono and duo variant
- maintenance-free, permanently smooth-running joint, pre-set ex works
- at a setting of 45°, the swing-up grab bar lowers automatically
- in the upper position (tilt < 45°) a defined friction force of the hinged support rail prevents unintentional lowering/triggering

FIXING MATERIAL

HEWI Fixing material for swing-up grab bars design A and design B to be ordered separately

for fixing on walls made of:

BM17.2

- concrete > C20/C25, national technical approval number: ETA-11/0493

Supplied with: 2 stainless steel screws M 10 x 30, 2 internal thread sleeves M 10 x 110

BM10.2

- concrete > C20/C25

Supplied with: 2 stainless steel countersunk bolts ø 10 x 95, 2 plugs HILTI HUD 14 x 70

BM11.2

- autoclaved aerated concrete (> P2)

Supplied with: 2 stainless steel screws M10 x 30, 2 mesh sleeves HIT-SC 22 x 85, 2 internal thread sleeves HIT-IC

BM12.2

- lightweight walls with rear lining made of laminated timber boards (with waterproof bonding, at least 1 3/16" (30 mm) thick required, e.g. studs or prewall installation) ...

Supplied with: 2 stainless steel countersunk bolts ø 10 x 95

BM13.2

- lightweight walls with integrated steel plates (e.g. studs or pre wall installation) ...

Supplied with: 2 stainless steel screws M10 x 60

BM18.2

- hollow concrete block, vertically perforated bricks, solid bricks,...,
national technical approval number: ETA-13/1036

Supplied with: 2 stainless steel screws M10 x 30, 2 mesh sleeves HIT-SC 18 x 85, 2 internal thread sleeves HIT-IC

INTEGRATED ADDITIONAL FUNCTIONS**Toilet roll holder**

- with integrated rotation control

**Toilet flushing solution (radio)**

- blue button (wave symbol) serves to trigger the WC flush (convex, tangible pressure point)
- transmission frequency 868.4 MHz
- suitable for radio WC flushing systems by Geberit, Mepa, Viega, Sanit, Friatec, TECE and Grohe

**Toilet flushing solution (E-model)**

- blue button (wave symbol) serves to trigger the WC flush (convex, tangible pressure point)
- cable with free cable ends for wall connection
- incl. white cover for the flush-mounted socket
- control voltage max. 30 V = SELV, PELV, switching current up to max. 2 A
- suitable for all standard UP flushing cisterns with an electrical control unit

**Toilet flushing solution/function button (E-model)**

- blue button (wave symbol) serves to trigger the WC flush, red button (bell symbol) serves to trigger a freely definable function (the function button does not meet the emergency call requirements according to DIN VDE 0834-1) (convex, tangible pressure points)
- cable with free cable ends for wall connection
- incl. white cover for the flush-mounted socket
- control voltage max. 30 V = SELV, PELV, switching current up to max. 2 A
- suitable for all standard UP flushing cisterns with an electrical control unit

900.50.10060

HEWI Swing-up grab bar Mono, Design A

- with one horizontal, round gripping level
- can be folded upwards and, with friction device, downwards
- maintenance free, permanently smooth and easy moving joint, preset in the factory
- from 45° tilt the swing-up grab bar lowers automatically
- in the upper position (tilt < 45°) a defined friction force secures the swing-up grab bar against accidental lowering/release
- a defined stop prevents the swing-up grab bar from hitting the wall
- 24 1/8" (612 mm) projection, 8 1/4" (210 mm) high and 4" (101 mm) wide, rail ø 1 5/16" (33.7 mm)
- made of stainless steel, loading capacity up to 220 lbs (100 kg)
- for wall mounting with non-corrosive and tested HEWI fixing material for different wall constructions (to be ordered separately)
- sealing tape for sealing fixing points is included in scope of supply
- fulfills highest cleaning product resistance and hygiene requirements
- meets the DIN 18040 requirements

- satin finished
- chrome-plated
- powder-coated in HEWI colors DX (matt white), SC (matt dark gray pearl mica) and DC (matt black)

900.50....XA
900.50....40
900.50....60

HEWI Swing-up grab bar Duo, Design A

- two parallel, round gripping levels arranged on top of each other
- can be folded upwards and, with friction device, downwards
- maintenance free, permanently smooth and easy moving joint, preset in the factory
- from 45° tilt the swing-up grab bar lowers automatically
- in the upper position (tilt < 45°) a defined friction force secures the swing-up grab bar against accidental lowering/release
- a defined stop prevents the swing-up grab bar from hitting the wall
- maximum product stiffness increases stability and gives the user a secure grip feeling
- 8 1/4" (210 mm) high and 4" (101 mm) wide
- top rail ø 1 5/16" (33.7 mm), bottom rail ø 1" (25 mm)
- made of stainless steel, loading capacity up to 220 lbs (100 kg)
- for wall mounting with non-corrosive and tested HEWI fixing material for different wall constructions (to be ordered separately)
- sealing tape for sealing fixing points is included in scope of supply
- floor supports 900.50.020... and 900.50.021... for retrofitting
- meets the ÖNORM B1600/1601 and SIA 500 requirements

- satin finished
- chrome-plated
- powder-coated in HEWI colors DX (matt white), SC (matt dark gray pearl mica) and DC (matt black)

All variants and prices see pages 66-67

900.50.21560

**HEWI Swing-up grab bar Duo, Design B**

- two parallel, round gripping levels arranged on top of each other
- can be folded upwards and, with friction device, downwards
- maintenance free, permanently smooth and easy moving joint, preset in the factory
- from 45° tilt the swing-up grab bar lowers automatically
- in the upper position (tilt < 45°) a defined friction force secures the swing-up grab bar against accidental lowering/release
- 10 1/16" (256 mm) high and 2 15/16" (75 mm) wide
- top rail ø 1 5/16" (33.7 mm), bottom rail ø 1" (25 mm)
- made of stainless steel, loading capacity up to 220 lbs (100 kg)
- wall plate made of polyamide with integrated steel core and satin stainless steel cover
- for wall-mounting with non-corrosive and tested HEWI fixing material for different wall constructions (to be ordered separately)
- sealing tape for sealing fixing points is included in scope of supply
- floor supports 900.50.020... and 900.50.021... for retrofitting
- meets the ÖNORM B1600/1601 and SIA 500 requirements
- satin finished
- chrome-plated
- powder-coated in HEWI colors DX (matt white), SC (matt dark gray pearl mica) and DC (matt black)

HEWI Mobile swing-up grab bar Mono, Design A

- with one horizontal, round gripping level
- can be folded upwards and, with friction device, downwards
- maintenance free, permanently smooth and easy moving joint
- from 45° tilt the swing-up grab bar lowers automatically
- in the upper position (tilt < 45°) a defined friction force secures the swing-up grab bar against accidental lowering/release
- a defined stop prevents the swing-up grab bar from hitting the wall
- made of st. steel, for mobile use, loading capacity up to 220 lbs (100 kg)
- for easy and flexible retrofitting on pre-assembled HEWI mounting plate (900.50.001XA resp. 900.50.00140, to be ordered separately)
- tool-free and quick installation by means of short, simple hanging, additionally secured with fastening screw
- 24 1/8" (612 mm) projection, 8 1/4" (210 mm) high and 4" (101 mm) wide, rail ø 1 5/16" (33.7 mm)
- sealing tape for sealing fixing points is included in scope of supply of the mounting plate
- meets the DIN 18040 requirements
- satin finished
- chrome-plated
- powder-coated in HEWI colors DX (matt white), SC (matt dark gray pearl mica) and DC (matt black)

HEWI Mobile swing-up grab bar Duo, Design A

- two parallel, round gripping levels arranged on top of each other
- can be folded upwards and, with friction device, downwards
- maintenance free, permanently smooth and easy moving joint
- from 45° tilt the swing-up grab bar lowers automatically
- in the upper position (tilt < 45°) a defined friction force secures the swing-up grab bar against accidental lowering/release
- a defined stop prevents the swing-up grab bar from hitting the wall
- maximum product stiffness increases stability and gives the user a secure grip feeling
- made of st. steel, f. mobile use, loading capacity up to 220 lbs (100 kg)
- for easy and flexible retrofitting on pre-assembled HEWI mounting plate (900.50.001XA resp. 900.50.00140, to be ordered separately)
- tool-free and quick installation by means of short, simple hanging, additionally secured with fastening screw
- 8 1/4" (210 mm) high and 4" (101 mm) wide
- top rail ø 1 5/16" (33.7 mm), bottom rail ø 1" (25 mm)
- sealing tape for sealing the fixing points is included in the scope of supply of the mounting plate
- floor supports 900.50.020... and 900.50.021... retrofittable
- meets the ÖNORM B1600/1601 and SIA 500 requirements
- satin finished
- chrome-plated
- powder-coated in HEWI colors DX (matt white), SC (matt dark gray pearl mica) and DC (matt black)

System 900

Grip

INNOVATIVE MOUNTING TECHNOLOGY

- Faster, easier assembly
 - Innovative corner connection only requires three instead of the usual four attachment points
 - Innovative plug-click principle
 - Precise joints thanks to laser technology
 - Compensation of the angle tolerance in the corner of the room of up to $\pm 2^\circ$ possible
 - Proven assembly principles for the attachment roses allows borehole tolerance
-

HANDLING COMFORT

- The cross-section is perfectly shaped for the human hand
- Round tube design offers a pleasant and secure hold

HYGIENIC DESIGN

- Minimum number of components, few joints
- Precise transitions thanks to laser technology
- Easy-care, leaning agent-resistant materials
- Pore-free surfaces
- Concealed fixing

MATERIAL OPTIONS

- Optional available in satin finished stainless steel, high-quality chrome-plated or powder-coated

CUSTOMISED

- Customised holding and pole system made of satin finished stainless steel
- Available from a series of 1

SEALING ELEMENT

- Attachment roses can be supplemented with sealing tape (included in the delivery scope)
- Seals the fixing element reliably toward the wall
- Compensates joints or unevenness on walls

- HEWI Grab bar**
- rail ø 1 1/4" (32 mm), 2 3/4" (70 mm) deep, tube thickness 1/16" (2 mm), roses ø 2 3/4" (70 mm)
 - made of high-quality stainless steel
 - upgrade kit toilet roll holder for retrofitting
 - including non-corrosive and tested HEWI fixing material for wall mounting and sealing tape for sealing the drilling points
 - meets the requirements of 2010 ADA standards and ICC / ANSI A117.1-2017

☒ ☐ Shower head holder

HEWI Shower grab bar with sideways adjustable vertical support bar and shower head holder

- rails $\varnothing$ 1 1/4" (32 mm), 2 3/4" (70 mm) deep, tube thickness 1/16" (2 mm), roses $\varnothing$ 2 3/4" (70 mm)
- made of high-quality stainless steel
- shower head holder made of high-quality matt polyamide in HEWI colors 98 (signal white), 92 (anthracite gray) and 90 (jet black)
- suitable for various manufacturers' shower heads
- shower head holder can be tilted continuously and, after pressing a large pushbutton, its height can be adjusted
- conical adapter on shower head holder facilitates accommodation of handspray
- reduced number of mounting roses due to innovative corner connection
- including non-corrosive and tested HEWI fixing material for wall mounting and sealing tape for sealing the drilling points
- upper mounting point (non-visible area) is accessible for easy replacement of shower head holder
- meets the requirements of 2010 ADA standards and ICC / ANSI A117.1-2017

For the satin finished or chrome-plated version please advise color of shower head holder when ordering.

Please note when using with removable hanging seats

Compatibility check required. A detailed list of the possible combinations of support rails, L-shaped support rails and shower head rails with matching removable hanging seats can be found in our online catalogue in the download area of the respective product.

System 900

Sit

VARIETY OF VARIANTS

- Extremely lightweight hanging seats
- Permanently installed folding shower seats
- Mobile tool-free solutions

COMFORT

- Pleasant, non-slip surface
- Slightly molded seat and the ergonomic backrest ensure stable positioning
- Thermoplastic seat yields slightly, especially soft seats

SEALING ELEMENT

- Assembly plate can be supplemented with sealing tape (included in the delivery scope)
- Seals the fixing element reliably toward the wall
- Compensates joints or unevenness on walls

MOBILE SOLUTION

- Shower seats are available as a mobile solution
- Mobile shower seat is clicked into position in a permanently mounted assembly plate as required
- Assembly and dismantling does not require any tools

RELIABLE TECHNOLOGY

- Pre-set brake absorbs seat lowering and minimises the risk of injury
- Reliable fixing and solid design improve stability

HYGIENIC DESIGN

- Seat surface made of thermoplastic (polypropylene) is resistant to cleaning and wound disinfectant (no discoloration)
- Minimum number of components, few joints
- Easy-care, cleaning agent-resistant materials
- Concealed fixing
- No water stains

HEWI Folding shower seat

- slip-resistant, textured seat made of synthetic material in HEWI colors 98 (signal white) and 92 (anthracite gray), can be folded up
- reinforcement of the seat made of aluminum, powder coated in the color of the seat, weight capacity up to 330 lbs (150 kg)
- seat depth when folded up 3" (77 mm)
- aluminum seat bracket ensures stability and safety
- moulded seat defines the sitting position (lightly curved shape provides pleasant support)
- seat made of thermoplastic synthetic material (polypropylene) enables an extremely resistant, hygienic surface and particularly soft seat comfort
- maintenance free, permanently smooth and easy moving joint
- 13 3/4" (350 mm) wide, 16 5/16" (415 mm) deep, 4 5/16" (110 mm) high
- seat 13 3/4" (350 mm) wide and 13 3/8" (340 mm) deep
- for mounting with non-corrosive and tested HEWI fixing materials for different wall systems (to be ordered separately)
- sealing tape for sealing fixing points is included in scope of supply
- wall bracket made of stainless steel, satin finished
- wall bracket made of stainless steel, chrome-plated
- wall bracket made of stainless steel, powder-coated in HEWI colors AS (matt white) and ER (matt dark gray pearl mica) with white seat or powder-coated in HEWI color CV (matt black) with black seat

*Please advise color of seat when ordering.

HEWI Mobile folding shower seat

- slip-resistant, textured seat made of synthetic material in HEWI colors 98 (signal white) and 92 (anthracite gray)
- reinforcement of the seat made of aluminum, powder coated in the color of the seat
- seat can be folded up to save space
- seat depth when folded up 3 1/4" (82 mm)
- weight capacity up to 330 lbs (150 kg)
- aluminum seat bracket ensures stability and safety
- moulded seat defines the sitting position (lightly curved shape provides pleasant support)
- seat made of thermoplastic synthetic material (polypropylene) enables and extremely resistant, hygienic surface and particularly soft seat comfort
- maintenance free, permanently smooth and easy moving joint
- for mobile use
- for easy and flexible retrofitting on existing, preassembled mounting plate: 900.51.001... (to be ordered separately)
- tool-free, quick installation by means of simple hanging of the seat
- secured by fixing screw
- 13 3/4" (350 mm) wide, 16 9/16" (420 mm) deep, 4 5/16" (110 mm) high (incl. mounting plate)
- seat 13 3/4" (350 mm) wide and 13 3/8" (340 mm) deep
- for mounting with non-corrosive and tested HEWI fixing materials for different wall systems (to be ordered separately)
- sealing tape for sealing fixing points is included in scope of supply
- wall bracket made of stainless steel, satin finished
- wall bracket made of stainless steel, chrome-plated
- wall bracket made of stainless steel, powder-coated in HEWI colors AS (matt white) and ER (matt dark gray pearl mica) with white seat or powder-coated in HEWI color CV (matt black) with black seat

*Please advise color of seat when ordering.

Color has always been firmly anchored in HEWI's DNA and naturally color is fundamental when it comes to adapting a design icon that is almost perfect in terms of form and function. Color is an essential element to compliment current trends and helps increase the opportunities for design in planning. HEWI's color combination in the Care range, creates a pleasing atmosphere in any room because of the interplay of the various components and their color accents. On the one hand gentle and calming, on the other rejuvenating – the perfect balance.

When something is highlighted with a color, that accent can signal its use and encourages intuitive use. This is a vitally important aspect when people have for example, restricted vision and color-accentuated products can provide better orientation.

Color combinations

ICONIC

Key to the design of the HEWI 477/801 range for healthcare buildings was the concept of "healing architecture". This is the idea that the way healthcare buildings are designed has an influence on the physical and mental well-being of patients, as well as family members and staff. "Healing architecture" includes the design of walls and floors, the incidence of light, the acoustics, the room shape and the furniture.

Light, bright green tones give a feeling of relaxation and harmony. Being close to nature communicates a feeling of liveliness and security, and in combination with the warm coral tone, brings a feeling of harmony. The targeted use of color contrasts helps orientation and encourages intuitive use. Because the colorful functional element of the shower holder stands out, its function is both highlighted and its function is illustrated.

Seating and holding fixtures in the shower make everyday life easier for both children and their carers. HEWI offers accessible system solutions for sitting, supporting and gripping, that perfectly fit into any children's bathroom thanks to their minimalistic and friendly design.

Color combinations

ICONIC

For kindergartens, day care centres and children's hospitals, HEWI offers two specifically tailored color combinations. This new edition of a classic design is available with natural shades of Apple Green, May Green, Coral as well as Aqua Blue, Steel Blue and Apple Green, which gives an appealing feel to the environment which children perceive as warm and inviting.

Consistent design right down to the last detail. The clothes hooks from HEWI create an inviting, playful, feel-good atmosphere in matching colors to the sanitary solutions of Range 477/801.

The matt edition of the 477/801 range, offers another design alternative. The matt finish gives the sanitary room in kindergartens and children's hospitals a homely atmosphere that promotes positive learning. Outstanding aesthetics and unlimited functionality are by no means mutually exclusive. The velvety finish of the matt edition is achieved through a special finishing process resulting in a unique design in premium quality made in Germany.

Color combinations

ICONIC

Especially with regard to children's independence, child-friendly furnishings in sanitary areas play an important role. A consistent, coordinated color concept not only has a friendly effect and gives to a sense of well-being, it also makes it easier for children to find their way around.

HEWI LED Adjustable mirror, basic

- rectangular, illuminated laminated glass mirror with sanded edges, integrated shatter protection and integrated LED lights on the side
- mirror adjustable by max. 28° using cranked cord control and therefore usable in standing or sitting position
- for wall mounting, direct connection 200-240 V
- with rope pulley for pre-wall installation
- with two high-quality LED aluminum light profiles attached to the back
- durable LED in light color: natural white, approx. 4000 Kelvin, total output approx. 9,6 watt
- LED and ballast are protected, protection class II, rating IP 44
- mirror 23 5/8" (600 mm) wide, 21 1/4" (540 mm) high and 1/4" (6 mm) thick
- energy efficiency class A++, A+, A acc. to ordinance (EU) 874/2012
- holding element/rotating handle made of high-quality polyamide
- holding element/rotating handle made of high-quality matt polyamide

HEWI Mobile swing-up grab bar

- for mobile use
- two parallel bars running one above the other joined by a connecting bend
- for holding onto and as a support
- load capacity up to 220.5 lbs (100 kg)
- with corrosion resistant steel core
- can be folded upwards and, with friction device, downwards
- for easy and flexible retrofitting on existing, preassembled mounting plate 950.50.016, to be ordered separately
- toolless and quick installation by simple attachment of the mobile hinged support rail
- secured by fixing screw to prevent unintentional removal
- 9 15/16" (252 mm) high and 3 1/16" (78 mm) wide, rail ø 1 5/16" (33 mm)
- upgrade kit toilet roll holder 801.50US010 for retrofitting

- made of high-quality polyamide in 14 HEWI colors

New 950.11.601S
New 950.11.600S

New 950.11.604S
New 950.11.603S

- HEWI Washbasin, variable length**
- with generously sized shelf and oval basin
 - alpine white, made of mineral composite with non-porous surface
 - base length: 33 7/16" (850 mm), extendable to a total length of up to 110 1/4" (2800 mm), 21 5/8" (550 mm) deep, wash trough depth 4 5/16" (110 mm)
 - millimetre-precision production, asymmetrical extensions possible*
 - integrated gripping feature, can be used as a towel holder
 - wheelchair accessible to DIN 18040 and ÖNORM B 1600/1601
 - loading capacity to EN 14688
 - for hanger bolt fixing
 - incl. appropriate number of necessary supports:
 - from W1/W2 = 27 15/16" (710 mm): one support
 - from W1/W2 = 42 1/2" (1080 mm): two supports
 - without overflow
 - prepared for single hole mixer tap
 - without tap hole (for wall-mounted fittings)
 - do., with overflow, incl. rose and cover
 - overflow can be replaced and renewed if necessary
 - overflow is mounted between drain and siphon under the washbasin, h = 1" (25 mm), ø = 2 3/4" (70 mm)
 - prepared for single hole mixer tap
 - without tap hole (for wall-mounted fittings)

Mineral composite

All HEWI variable length washbasins are individually made to the dimensions specified by the customer and therefore cannot be exchanged or returned!

POSSIBLE INSTALLATION SITUATIONS | ORDERING INSTRUCTIONS

Freely on the wall

1. Measure the precise dimensions of the wall at the installation height of the washbasin after the wall surface has been finished.
2. Check the wall for unevenness.
3. Define the side washbasin projections W1 and W2

Attention:

minimum dimension W1/W2 = 16 3/4" (425 mm),
maximum dimension W1/W2 = 55 1/8" (1400 mm).

One-sided on the wall

1. Measure the precise dimensions of the wall at the installation height of the washbasin after the wall surface has been finished.
2. Check the wall for unevenness.
3. Check whether the solid angle is 90°.
4. Define the side washbasin projections W1 and W2

Attention:

minimum dimension W1/W2 = 16 3/4" (425 mm),
maximum dimension W1/W2 = 55 1/8" (1400 mm).
Please note that a silicone joint at the side of at least 1/8" (3 mm) will be required.

Niche

1. Measure the precise dimensions of the niche at the installation height of the washbasin after the wall surface has been finished.
2. Check the wall for unevenness.
3. Check whether the niche angles are each 90°.
4. Define the side washbasin projections W1 and W2

Attention:

minimum dimension W1/W2 = 16 3/4" (425 mm),
maximum dimension W1/W2 = 55 1/8" (1400 mm).
Please note that a silicone joint of at least 1/8" (3 mm) will be required on each side.

Niche, not right-angled

1. Measure the precise dimensions of the wall at the installation height of the washbasin after the wall surface has been finished.
2. Check the wall for unevenness.
3. If the niche angle is not 90°, line on site to form 90°.
4. Define the side washbasin projections W1 and W2

Attention:

minimum dimension W1/W2 = 16 3/4" (425 mm),
maximum dimension W1/W2 = 55 1/8" (1400 mm).
Please note that a silicone joint of at least 1/8" (3 mm) will be required on each side.

Niche, not right-angled

1. Measure the precise dimensions of the wall at the installation height of the washbasin and the installation depth (340 mm) after the wall surface has been finished.
2. Check the wall for unevenness.
3. If the niche angle is not 90°, line on site to form 90°.
4. Define the side washbasin projections W1 and W2

Attention:

minimum dimension W1/W2 = 16 3/4" (425 mm),
maximum dimension W1/W2 = 55 1/8" (1400 mm).
Please note that a silicone joint of at least 1/8" (3 mm) will be required on each side.

Niche | Door lining

1. Measure the precise dimensions of the wall at the installation height of the washbasin after the wall surface has been finished.
2. Check the wall for unevenness.

3. Check whether the niche angles are each 90°.

- If door lining cannot be removed for installation of the washbasin
4. Determine the niche width (taking into account doorframe)
5. Define the side washbasin projections W1 and W2

Attention:

minimum dimension W1/W2 = 16 3/4" (425 mm),
maximum dimension W1/W2 = 55 1/8" (1400 mm).
Please note that a silicone joint of at least 1/8" (3 mm) will be required on each side.

Modular washbasin system

Independence and comfort

With the new washbasin concept, HEWI is continuing the success story of its innovative washbasins.

Modular washbasin system

The innovative concept allows the integration of an adaptive support rail and a modular storage system directly on the washbasin. It is available with four attractive stainless steel surfaces with powder coating. The material creates a noble appearance on the washbasin, which has an extremely resistant surface and offers a high degree of grip comfort when holding the grab bar.

Washbasin elements

The washbasins can be extended by the modular system – as required by the individual needs of the user.

Washbasin sets

Sensibly composed sets allow straightforward expansion of the washbasin by useful elements.

Wall profiles

Due to the timeless and modern design, the organisation system is also ideal for the wall.

HEWI Washbasin, modular

modular washbasin system: adaptive additional functions can be extended or removed

- with shelf and deep rectangular basin with generous radii
- with gushing edge to wall
- without overflow
- alpine white, mineral composite material with non-porous surface
- 25 9/16" (650 mm) wide, 21 5/8" (550 mm) deep
- wheelchair accessible to DIN 18040, ÖNORM B 1600/1601
- loading capacity to EN 14688
- for hanger bolt fixing
- prepared for single hole mixer tap
- without tape hole (for wall-mounted fittings)

Dimensions / Specification

Technical drawing of the HEWI Washbasin showing top and side views with dimensions in inches and millimeters.

Top View Dimensions:

- Overall width: $W1 = \min. 16\frac{3}{4}'' (425 \text{ mm}) - \max. 51\frac{3}{16}'' (1300 \text{ mm})$
- Distance from wall to first support: $14\frac{9}{16}'' (370 \text{ mm})$
- Distance between supports: $25\frac{3}{4}'' (650 \text{ mm})$
- Distance from last support to wall: $14\frac{9}{16}'' (370 \text{ mm})$
- Basin width: $21\frac{5}{8}'' (550 \text{ mm})$
- Basin depth: $8\frac{1}{16}'' (220 \text{ mm})$
- Overflow height: $2\frac{1}{16}'' (50 \text{ mm})$
- Basin height: $29\frac{1}{2}'' (750 \text{ mm})$

Side View Dimensions:

- Basin height: $29\frac{1}{2}'' (750 \text{ mm})$
- Overflow height: $2\frac{1}{16}'' (50 \text{ mm})$
- Basin depth: $8\frac{1}{16}'' (220 \text{ mm})$
- Basin width: $21\frac{5}{8}'' (550 \text{ mm})$
- Basin height (from wall): $26\frac{1}{4}'' (681 \text{ mm})$
- Basin height (from floor): $31\frac{1}{2}'' (800 \text{ mm})$

HEWI Washbasin, variable length

- modular washbasin system: with support rail extendable or removable
- with shelf and deep rectangular basin with generous radii
- with gushing edge to wall
- without overflow
- alpine white, made of mineral composite with non-porous surface
- base length: $33\frac{7}{16}'' (850 \text{ mm})$, extendable to a total length of up to $102\frac{3}{8}'' (2600 \text{ mm})$, $21\frac{5}{8}'' (550 \text{ mm})$ deep, wash trough depth $3\frac{15}{16}'' (100 \text{ mm})$
- wheelchair accessible to DIN 18040 and ÖNORM B 1600/1601
- loading capacity to EN 14688
- for hanger bolt fixing
- incl. appropriate number of necessary supports
- prepared for single hole mixer tap
- without tap hole (for wall-mounted fittings)

Washbasin sets

Well thought-through combinations

Create an overview at your washbasin with HEWI's modular washbasin system. With the pre-configured washbasin sets, practical solutions are available for expanding the washbasin.

We have put together the most popular variations as sets for you. These are based on the individual needs of the users and are specially adapted to the respective requirements.

Washbasin sets

Washbasin set 950.19.070 | 950.19.080 (with overflow)

950.19.070 | 950.19.080

consisting of:

950.13.201 | 950.13.203
950.13.0001

Washbasin

Washbasin profiles with support rail

see page 306

Washbasin set 950.19.071 | 950.19.081 (with overflow)

950.19.071 | 950.19.081

consisting of:

950.13.201 | 950.13.203
950.13.0001
950.13.0013 (2x)

Washbasin

Washbasin profiles with support rail

Hook

see page 307

Washbasin set 950.19.072 | 950.19.082 (with overflow)

HEWI Set washbasin with support rail

- set includes:
- washbasin 950.13.201
 - modular washbasin system: adaptive additional functions can be extended or removed
 - with shelf and deep rectangular basin with generous radii
 - with gushing edge to wall, without overflow
 - alpine white, mineral composite material with non-porous surface
 - 25 9/16" (650 mm) wide, 21 5/8" (550 mm) deep
 - prepared for single hole mixer tap
 - wheelchair accessible to DIN 18040 and ÖNORM B1600/1601
 - loading capacity to EN 14688
 - for hanger bolt fixing
 - washbasin profiles with support rail 950.13.0001
 - support rail, can also be used as a towel holder, loading capacity up to 176.4 lbs (80 kg)
 - 25 9/16" (650 mm) wide, rail ø 1" (25 mm)
 - mounted under the washbasin using two profiles
 - rail made of high-quality stainless steel, powder-coated in HEWI colors DX (matt white), SC (matt dark gray pearl mica) and DC (matt black)

New 950.19.080

HEWI Set washbasin with support rail

- do., washbasin 950.13.203
 - inclusive overflow, with rose and cover
 - overflow can be replaced and renewed if necessary
 - overflow is mounted between drain and siphon under the washbasin, h = 1" (25 mm), ø = 2 3/4" (70 mm)

Please advise the surface of the washbasin profiles with support rail when ordering.

950.19.072

HEWI Set washbasin with support rail and shelf

set includes:

- washbasin 950.13.201
- modular washbasin system: adaptive additional functions can be extended or removed
- with shelf and deep rectangular basin with generous radii
- with gushing edge to wall, without overflow
- alpine white, mineral composite material with non-porous surface
- 25 9/16" (650 mm) wide, 21 5/8" (550 mm) deep
- prepared for single hole mixer tap
- wheelchair accessible to DIN 18040 and ÖNORM B 1600/1601
- loading capacity to EN 14688
- for hanger bolt fixing
- washbasin profiles with support rail 950.13.0001
- support rail, can also be used as a towel holder, loading capacity up to 176.4 lbs (80 kg)
- 25 9/16" (650 mm) wide, rail ø 1" (25 mm)
- mounted under the washbasin using two profiles
- shelf 950.13.0014
- shelf can easily be inserted and removed in the profile, loading capacity up to 4.4 lbs (2 kg)
- 14 3/16" (360 mm) wide, 4" (102 mm) deep
- shelf and rail made of high-quality stainless steel, powder-coated in HEWI colors DX (matt white), SC (matt dark gray pearl mica) and DC (matt black)
- including non-corrosive HEWI fixing material

New 950.19.082

HEWI Set washbasin with support rail and shelf

- do., washbasin 950.13.203
- inclusive overflow, with rose and cover
- overflow can be replaced and renewed if necessary
- overflow is mounted between drain and siphon under the washbasin, h = 1" (25 mm), ø = 2 3/4" (70 mm)

Please advise the surface of the washbasin profiles with support rail and shelf when ordering.

PREMIUM QUALITY

Selected materials and careful workmanship ensure durable products of outstanding quality. HEWI has always produced its polyamide products in its own factory in North Hesse, Germany. As a premium brand, HEWI offers high-quality, long-lasting system solutions and enables consistent design throughout, from the entrance door through to the sanitary room.

CE CODING PURSUANT TO THE MEDICAL PRODUCTS ACT

CE Medical products are subject to directive 93/42 EEC and are legally required to be marked with the letters 'CE'. The CE seal may only be used if the product in question has successfully completed the CE conformity evaluation procedure. The guarantee that safety standards are adhered to is, therefore, given in the case of HEWI marked products.

GS-TESTED SAFETY

Our cloakroom products are subject to voluntary testing.

With HEWI you therefore acquire tested safety (and hence the GS abbreviation). For you this means: you can depend on HEWI products always satisfying the current safety standards and in most cases they even exceed them.

SUSTAINABILITY

Resource-saving methods, the highest quality and extreme durability contribute to the development of environmentally friendly products. At HEWI each work step is tested for environmental compatibility and optimized if necessary. Since 1998 the HEWI environmental management system is international standard. HEWI products can be recycled.

CERTIFICATIONS

The following certifications have been confirmed by accredited certification firms for the scope: development, production and sale of signage systems, hardware, electronic locking systems, handrails, sanitary accessories and accessibility products as well as injection moulding products made of synthetic materials including the necessary moulds and resources:

EN ISO 9001

As early as 1994 all our corporate processes were already being performed in accordance with DIN EN ISO 9001 quality guidelines. As a result, we are committed to the highest quality at all product stages, from the planning to the development through to manufacturing and shipping. For you, this means, at HEWI you always get top quality.

EN ISO 14001

HEWI's environmental management system conforms to international standards and has been certified by accredited companies since 1998. These long life cycles and the longterm strategy of using timeless designs contribute to relieving the environment.

EN ISO 50001

Through a consistent energy management, we are committed to systematically exploit potential energy savings in business and purposefully implement measures. Since 2014 supports a comprehensive energy management system to continuously improve our energy performance.

Copies of the certificates can be issued on request.

SAFETY WITH SYSTEM

The Safety with System seal of approval of the Berufsgenossenschaft Chemie distinguishes occupational safety at HEWI.

PARTNERS

HEWI is actively involved in a broad-based network and is therefore a member of diverse associations.

POLYAMIDE AND CHROME PLATED SURFACES – MATERIAL CHARACTERISTICS AND CARE TIPS

High gloss surfaces and brilliant colors characterize the HEWI products made of high-quality polyamide. The non-porous surface is easy to clean. Polyamide is extremely robust. HEWI polyamide products are easy-care. Generally speaking, an occasional wipe with a damp cloth is enough. If, however, you feel you have to use detergents, you should take note of the following information. Only use detergents with a pH-rating of between 6 and 8. Detergents containing active substances such as phosphates, soap and tensides may be used. Detergents containing acids, alkalis, bleach or scouring agents may not be used. Nor should utensils with a scouring effect such as brushes etc. Usage of any detergent requires full compliance with the manufacturer's instructions (concentration, soaking time etc.).

STAINLESS STEEL – MATERIAL CHARACTERISTICS AND CARE TIPS

Stainless steel has a non-porous and therefore particularly hygienic surface. Minimal maintenance requirements sufficient to prevent dirt, bacteria or microorganisms accumulate on the surface. The material is extremely robust and resistant to scratches. Due to their smooth surface and high resistance to detergents and disinfectants, components made of non-corroding stainless steel are particularly easy to clean. An occasional wipe-down with warm water and a standard detergent is generally sufficient. Detergents with iron, acid or chlorine content are not suitable for cleaning purposes, as they allow foreign or ambient rust to form on the surface of the stainless steel. Scouring aids or detergents containing a scouring additive should also be avoided. It should also be noted that HEWI product surface finishes can be attacked and damaged.

MORE INFORMATION ABOUT CLEANING HEWI PRODUCTS

Our warranty does not cover damage occurring as a result of incorrect handling.

Ask our order centre to send you a detailed list of approved detergents.

Please contact HEWI

if any questions are left.

International terms and conditions of sale

§ 1 Applicability of these International Terms and Conditions of Sale

(1) The terms and conditions set out in these International Terms and Conditions of Sale, which form an integral part of the Contract of Sale, apply to all Contracts of Sale concluded as of 2 January 2020 if the buyer's relevant place of business is outside of Germany. These International Terms and Conditions of Sale apply exclusively. The buyer's terms and conditions which conflict or differ from these International Terms and Conditions of Sale and/or from the legal provisions do not apply, even if we do not object to them or render performance or accept the buyer's performance.

(2) These Terms and Conditions of Sale do not apply if the goods are bought for personal, family or household use and we knew or ought to have known at any time before or at conclusion of the Contract of Sale that the goods were bought for any such use. The buyer declares that the goods are not bought for personal, family or household use.

§ 2 Formation of the Contract of Sale

(1) A Contract of Sale always requires a written order of the buyer.

(2) We may accept the buyer's written order with our order acknowledgement (hereinafter the "Order Acknowledgement") within 10 (ten) calendar days after receipt of the buyer's order.

§ 3 Applicable Law

(1) The Contract of Sale is governed by the United Nations Conventions of 11 April 1980 on Contracts for the International Sale of Goods (UN Sales Convention/ CISG) in the English version and all legal questions beyond the scope of the CISG are governed by the Swiss law of obligations (Obligationenrecht). The CISG also applies to all agreements as to the jurisdiction of courts and arbitral tribunals.

(2) Should commercial terms be used the Incoterms® 2020 of the International Chamber of Commerce apply taking into account the provisions stipulated in these International Terms and Conditions of Sale.

§ 4 Specifications of the goods; Third party rights

(1) The goods to be delivered have to conform to the specifications and quality requirements set out in the Order Acknowledgement. To the extent no specifications or quality requirements are stated in the Order Acknowledgement, the goods conform with the contract if they are fit for the purpose which is usual in Germany and fit for the purpose for which goods of the same description are usually used for in Germany. Unless otherwise explicitly agreed to, the goods do not have to conform to any laws or regulations existing outside of Germany. Should the conformity of the goods depend on the field of application of the goods, the buyer shall also be responsible for ensuring that the goods are suitable for the purpose intended by him.

(2) Should the buyer intend to use the goods in circumstances which are unusual or which could entail a particular risk to the safety and health of any person or to the environment, the buyer has to inform us in writing about these intentions before concluding the Contract of Sale.

(3) Rights and claims of third parties (in particular rights and claims based on title or industrial property rights) only constitute a defect in title if these rights and/or claims are in force and registered in Germany and impede the use of the goods in Germany.

§ 5 Obligation to deliver; Passing of risk

(1) We have to deliver the goods referred to in the Order Acknowledgement including a packaging that is suitable for the means of transportation.

(2) Delivery has to be made FCA Incoterms 2020 at our premises in 34454 Bad Arolsen/Germany. We are not obliged to contract for carriage and we are not obliged to inform the buyer that the goods have been delivered or that the carrier or another person nominated by the buyer has failed to take the goods within the time agreed. We are however entitled to contract for carriage in our own name at the buyer's risk and expense; the costs resulting therefrom will be charged to the buyer with the invoice. We are also entitled to contract for carriage on behalf of the buyer at the buyer's risk and expense. In all such instances where we contract for carriage at buyer's risk and expense, the place of performance for delivery will be 34454 Bad Arolsen/Germany.

(3) Adherence to the delivery date respectively the delivery period stated in the Order Acknowledgement is not of the essence and non-adherence to the delivery date or the delivery period respectively does not constitute a fundamental breach of contract. If delivery periods are agreed to, we reserve the right to determine the exact delivery time within the delivery period.

(4) All delivery dates and delivery periods are dependent upon the buyer performing all of his obligations in due time. In particular, the buyer has to procure or confirm any necessary permits, drawings etc. and make agreed payments in due time.

(5) We are entitled to make partial deliveries and to invoice these separately.

(6) The passing of risk takes place with delivery in accordance with § 5 sec. 2. Should the buyer fail to take delivery, the risk passes at the time the buyer fails to take delivery.

(7) In addition to our statutory rights we are entitled to suspend the performance of our obligations if there are reasonable indications that the buyer will not perform his obligations under the Contract of Sale, in particular not be able to pay the agreed price in due time.

§ 6 Delivery Note, Invoice and other documents

(1) We will provide the buyer with a delivery note issued according to our standard.

(2) Irrespective of the Incoterms-clause used, we are not obliged to clear the goods for export. We will however at the buyer's risk and expense apply for any necessary export licences and formalities as regards customs provided that the buyer has provided us with all necessary information.

(3) We will provide the buyer only with such documents explicitly stated on the Order Acknowledgement.

§ 7 Force Majeure

Any inability to supply as a result of force majeure or other unforeseen incidents outside our responsibility including, without limitation, strike, lock out, acts of public authorities, subsequent cease of export or import opportunities shall, for their duration and in accordance with their impact, relieve us from the obligation to comply with any agreed delivery period and delivery time as well as any other obligation.

§ 8 Obligation to pay the purchase price

(1) The buyer is obliged to pay the agreed purchase price to the bank account nominated by us. Insofar as pursuant to the Order Acknowledgement the packaging costs are not included in the purchase price, these costs are to be paid in addition to the purchase price. The place of payment is 34454 Bad Arolsen/Germany. Banking fees accrued outside of Germany will be borne by the buyer. The payment shall be made without any deductions and is due for payment on the date or within the time limit as stated on the Order Acknowledgement. A time limit for payment stated on the Order Acknowledgement shall be calculated from the date of invoice. In the absence of any payment dates or time limits stated on the Order Acknowledgement, payment shall be made within 30 (thirty) calendar days after date of invoice. The buyer's acceptance of the goods is no precondition for the payment to become due.

(2) The agreed prices shall exclude any statutory VAT applicable at the date of delivery.

(3) The buyer is only entitled to exercise a lien or to suspend his performance if this is based on the same transaction as well as based on a due

and undisputed or finally adjudicated counterclaim of the buyer.

(4) The buyer may only offset any claims insofar as the buyer's counter-claim is acknowledged, undisputed or assessed in a legally binding judgement.

(5) If and till such time the buyer is in arrears with payment of the purchase price, the buyer is obliged to pay interest at the rate of nine (9) percentage points above the base rate of the German Central bank per annum.

§ 9 Non-Conforming goods; Goods with a defect in title

(1) The goods do not conform to the contract if at the time the risk passes they significantly deviate from the requirements set out in § 4 sec. 1 and sec. 2.

(2) The goods are not free from rights or claims of third parties if at the time the risk passes they significantly deviate from the requirements set out in § 4 sec. 3.

§ 10 Duty of examination and notification

(1) Without prejudice to the legal provisions, the buyer is obliged to examine the goods comprehensively in respect of deviations as regards type, quantity, quality and packaging. If necessary, the buyer is obliged to conduct the examination with the help of external third parties.

(2) Notice of non-conformity has to be made in within ten (10) calendar days. For very obvious non-conformities, the period for such notification starts with the delivery of the goods, in all other cases after the buyer has discovered the non-conformity or ought to have discovered it. Notice of non-conformity has to be given in writing. The notice of non-conformity has to clearly indicate and describe the non-conformity in such a way that we can take remedial actions.

(3) Apart from the aforesaid as well as with respect to defects in title, the statutory provisions apply.

§ 11 Limitation Period

Without prejudice to claims resulting from a malicious, grossly negligent or intentional conduct as well as claims due to injury of life, body or health, the buyer's claims in respect of the delivery of non-conforming goods and goods with a defect in title become time-barred one (1) year after delivery of the goods.

§ 12 Remedies in case of non-conforming goods and goods with a defect in title; Limitation of Liability

(1) In case of delivery of non-conforming goods, the buyer can claim delivery of substitute goods, rectification of a non-conformity by repair, reduce the purchase price or declare avoidance of the Contract of Sale only in accordance with the legal provisions. Delivery of substitute goods and rectification of a non-conformity by repair does not include the removal of the non-conforming goods nor the assembly of the repaired or of the substitute goods.

(2) To the extent any costs associated with performing remedies are increased by the fact that the buyer has removed the goods to a place not stated in the Order Acknowledgement or, in the absence of such an indication, to a place other than the buyer's place of business, these costs will be borne by the buyer.

(3) Delivery of substitute goods or repair does not lead to a restart or extension of the limitation period.

(4) If we deliver non-conforming goods or goods with a defect in title or breach any other obligation resulting from the Contract of Sale or the business relationship with the buyer, the buyer is entitled to demand damages only in accordance with the following provisions and any recourse to concurrent bases of claim (in particular of a non-contractual nature) is excluded:

a. We are not liable for the conduct of our suppliers or subcontractors. Neither are we liable for damages to which the buyer has contributed.

b. The buyer has to prove that either our directors or employees or other members of staff have deliberately or negligently breached contractual obligations owed to the buyer.

c. In case of liability, the amount of damages for late delivery is limited to 0,5 per cent for each full week of delay, up to a maximum of 5 per cent of the purchase price of the goods delivered late or not at all, and in case of remedies because of delivery of non-conforming goods and/or goods with a defect in title and in case of all other breaches of obligations is limited to the purchase price of the goods affected.

d. Irrespective of § 12 sec. 5 c), we are not liable for loss of profit.

e. The aforesaid limitations in § 12 sec. 5 do not apply

i. to injury of life, body or health,

ii. if we have acted maliciously, grossly negligent or intentionally,

iii. if we are liable according to mandatory product liability laws, and

iv. to liabilities which may not be excluded or limited according to the applicable laws.

(5) Apart from the aforesaid, the statutory provisions apply.

§ 13 Right to use Software; Rights in documents etc.

(1) In case the goods include software, with the delivery of the goods the buyer is hereby granted a non-exclusive, royalty-free license to use the software, but strictly and only in connection with the goods purchased under this Contract of Sale. With the exception of the right to make one backup copy, the buyer is not entitled to copy the software.

(2) We reserve all intellectual property rights in any documents, pictures, drawings etc. (collectively "Documents") arising in connection with the performance of the obligations arising under the Contract of Sale and such Documents shall belong exclusively to us.

§ 14 Other Provisions

(1) Title of the goods that have been delivered remains with us until all of our claims against the buyer have been settled.

(2) We are not obliged to perform any obligations not stated in the written Order Acknowledgement or in these International Terms and Conditions of Sale.

(3) There are no side agreements to the Contract of Sale.

(4) Any amendments to a concluded Contract of Sale require our written confirmation, duly approved by signature.

(5) The buyer is not entitled to assign his rights and obligations against us to a third party.

(6) The place of performance for delivery is governed in § 5 sec. 2, the place of performance for the payment in § 8 sec.1. For all remaining obligations and irrespective of the agreement of a differing Incoterms-clause, the place of performance is agreed to be 34454 Bad Arolsen/Germany, including for a replacement delivery, for the rectification of non-conformities and for the restitution of the contractual obligations in case of avoidance of the Contract.

(7) All communications, declarations, notices etc. (herein-after collectively "Notices") are to be drawn up exclusively in German or English. Notices by means of fax or email fulfil the requirement of being in writing. A signature is not required, unless these International Terms and Conditions of Sale explicitly require a signature.

§ 15 Agreement on arbitration and jurisdiction

(1) If the Buyer's place of business is located within the European Economic Area and/or within Switzerland, for all disputes, including disputes under insolvency law, arising out of or in connection with a Contract of Sale and/or these International Terms and Conditions of Sale, including its validity, invalidity, violation or cancellation as well as other disputes arising out of the business relationship between the Buyer and us, the state court which has jurisdiction for 34454 Bad Arolsen/Germany shall have exclusive jurisdiction. Instead of bringing an action before the state court which has jurisdiction for 34454 Bad Arolsen/Germany, we are also entitled to bring an action before the state court of the Buyer's place of business.

(2) If the Buyer's place of business is located outside of both the European Economic Area and Switzerland, all contractual and extra-contractual disputes, including disputes under insolvency law, arising out of or in connection with a Contract of Sale and/or these International Terms and Conditions of Sale, including its validity, invalidity, violation or cancellation as well as other disputes arising out of the business relationship between the Buyer and us shall be finally settled in accordance with the Swiss Rules of International Arbitration of the Swiss Chambers' Arbitration Institution in force on the date on which the Notice of Arbitration is submitted in accordance with these Rules. The place of the arbitration shall be Zurich/Switzerland, the language used in the arbitral proceedings shall be English.

§ 16 Severability

If provisions of these International Terms and Conditions of Sale should be or become partly or wholly ineffective, the remaining provisions will continue to apply. We and the buyer are bound to replace the ineffective provision with a legally valid provision as close as possible to the commercial meaning and purpose of the ineffective provision.
