mmnt: in dim: L 65 x W 28 x D 27
weight: 1,77
L 2,56 x W 1,10 x D 1,06
255 g

DESCRIPTION

SAGE offers a refined interpretation of the traditional cup handle. Its sculpted rectangular form and gentle curves lend calm and balance, whether mounted horizontally across a drawer or vertically on a cabinet door. SAGE brings understated elegance to any space, shaped to be both seen and felt.

The collection is made exclusively from recycled solid brass, in a second-generation foundry in Florence. The products may show small variations and imperfections due to the artisanal processing technique involved in making each of our pieces.

CARE INSTRUCTIONS

All our finishes are uncoated and will naturally develop a beautiful patina over time. We recommend the occasional use of a soft damp cloth to help preserve the finish. The polished finishes can be given a light polish to restore the original sheen.
