

Flying Fish Pull®
FF-WL

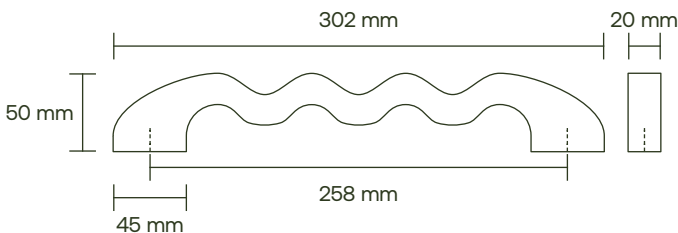

In a surreal dance of survival, the flying fish emerges from the water and propels itself into the air. It glides with fluid grace, navigating between water and sky, creating gentle ripples on the surface.

Designed with sinuous lines, the Flying Fish Pull is directly inspired by the fluidity and rhythmic movement of the captivating creature over the water.

This sculptural handle offers more than just practicality, it brings a sense of flow and wonder into your interior.
